NEW! KERATIN REPLACEMENT &

SMOOTHING THERAPY

Get Straighter..Smoother..Shiny..Sexy Hair!. Even in one of the most humid of climates we live in! Clients that have already experienced the treatment are thrilled with the results, claiming what an incredible time saver it has been & 'Wow, that's my hair'?! 'Unbelievable to be able to sit out in the evening for a few hours over dinner, Frizz Free!..Enough said'! This is indeed a revolutionary process long awaited by millions of women! The treatment is especially formulated to revitalize & rejuvenate your hair eliminating frizz & curl, typically lasting three months plus depending on your hair type. The treatment is keratin based. Keratin is the primary protein of the skin, hair & nails. This substance gives your hair the chance to return to its original healthy state. Unlike other products on the market such as permanent relaxers & thermal conditioning treatments , the keratin treatment relaxes the hair without damaging or changing its texture. The treatment can be used on all hair types including chemically treated hair. The treatment can and should be an ongoing treatment for your hair. As you repeat the treatment every few months or so you will be able to observe the improved quality, getting healthier time after time. The actual treatment takes no longer than it would a full head of foils, obviously time according to hair length. We have put together a package which we feel is unbeatable. This includes a cut & blow dry on your return appointment 3 days post treatment. We stock the keratin shampoo & conditioners in the salon for retail which are sulphate free, highly recommended for post treatment & maintenance.
