Cooks Note

A light and comforting Asian style soup that is nourishing, quick and easy to make, low in fat and meat free, just the thing for this time of year!

You can use any mushrooms for this soup; I had shitake and enoki to hand so I used them, and I like to add a few chestnut mushrooms too for a contrasting firmer texture.

The flavour of this soup is warming but fairly mild; you may wish to add more chilli if you prefer more heat.
